

LINE TRACKING TILES

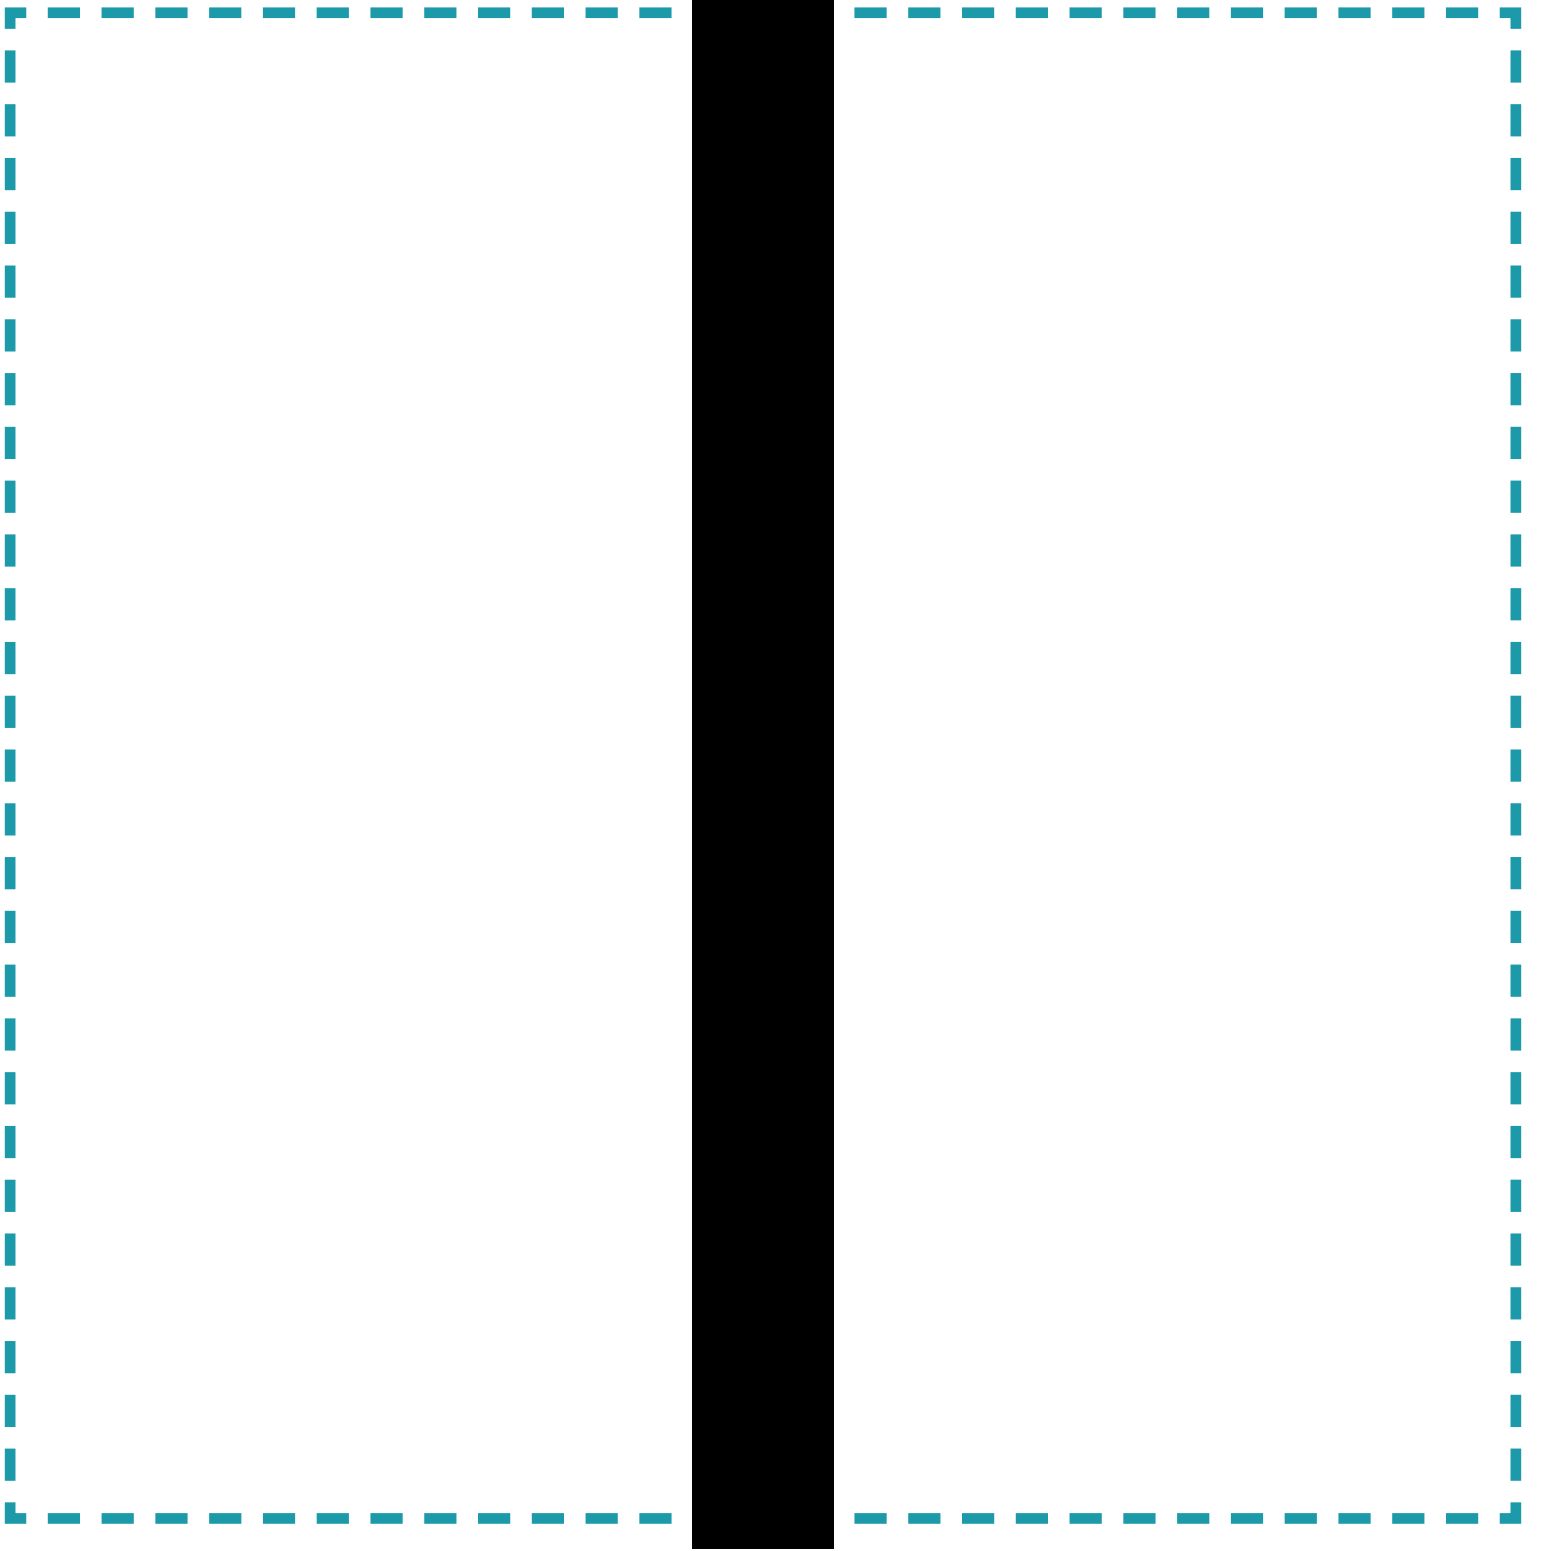

FOR THE FINCH ROBOT

INSTRUCTIONS

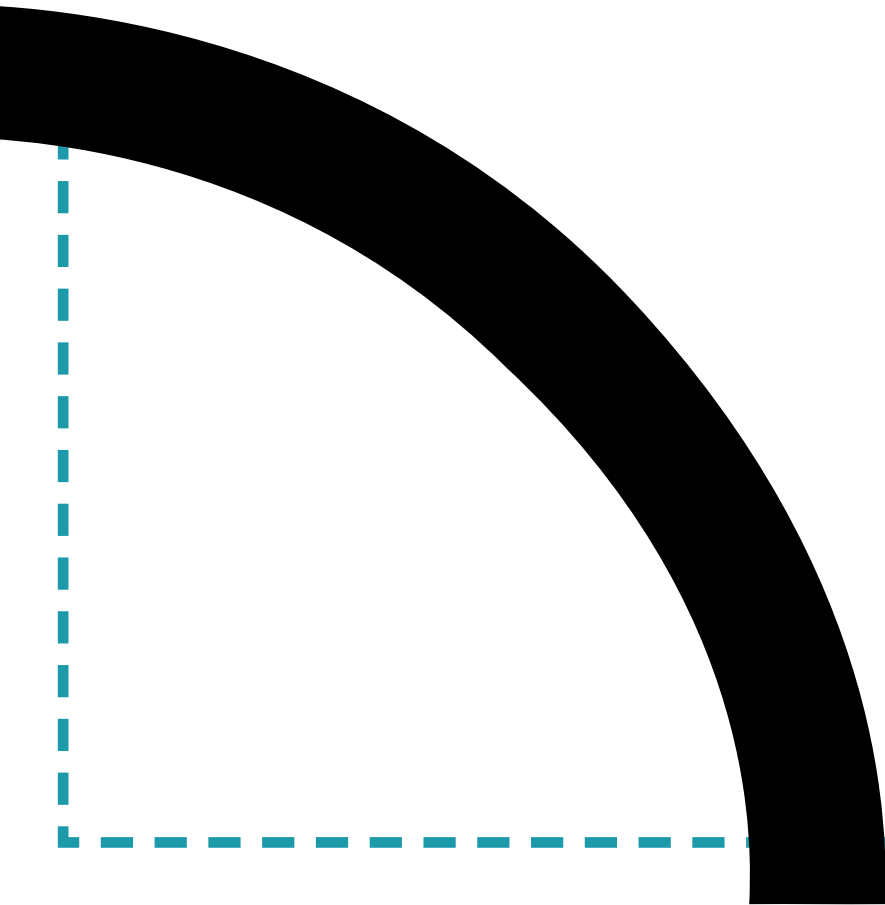

- Print and combine tiles to make a custom track for your Finch!
- Print at 100% Do not scale. Each tile (200x200 mm) fits either A4 or US letter paper.
- To print a specific track, enter the tile numbers in the 'Page' field in your printer settings. For example: 2,2,2,2,3,3,3,3,7. This set of pages will provide you with a square track with rounded corners.
- Cut along the dashed lines and connect the squares to make your track.
- Draw and design your own map below!
